ACTIVITY SHEET

FOUNDATION TRAINING GUIDE

Suitable for Blue Prism version 6.2 or greater

The training materials and other documentation (“Training Materials”) provided by Blue Prism as part of the training course are Blue Prism’s Intellectual Property and Confidential Information. They are to be used only in conjunction with the Blue Prism Software which is licensed to your company, and the Training Materials are subject to the terms of that license. In addition, Blue Prism hereby grants to you a personal, revocable, non-transferable and non-exclusive license to use the Training Materials in a non-production and non-commercial capacity solely for the purpose of training. You can modify or adapt the Training Materials for your internal use to the extent required to comply with your operational methods, provided that you shall (a) ensure that each copy shall include all copyright and proprietary notices included in the Training Materials; (b) keep a written record of the location and use of each such copy; and (c) provide a copy of such record to Blue Prism on request and allow Blue Prism to verify the same from time to time on request.

For the avoidance of doubt, except as permitted by the license or these terms, you cannot (a) copy, translate, reverse engineer, reverse assemble, modify, adapt, create derivative works of, decompile, merge, separate, disassemble, determine the source code of or otherwise reduce to binary code or any other human-perceivable form, the whole or any part of the Training Materials; (b) sublease, lease, assign, sell, sub-license, rent, export, re-export, encumber, permit concurrent use of or otherwise transfer or grant other rights in the whole or any part of the Training Materials; or (c) provide or otherwise make available the Training Materials in whole or in part in any form to any person, without prior written consent from Blue Prism.

Section 10 Activity Sheet

In Section 10, you will build on your existing knowledge of Blue Prism by expanding on areas you have covered in previous sections. This will provide a more in-depth look at some key aspects of Blue Prism to refine your skills and ability. Importantly, you will learn how to import and export Processes, Business Objects and entire Blue Prism Solutions through Blue Prism Release Manager.

SECTION 10 ACTIVITY 1

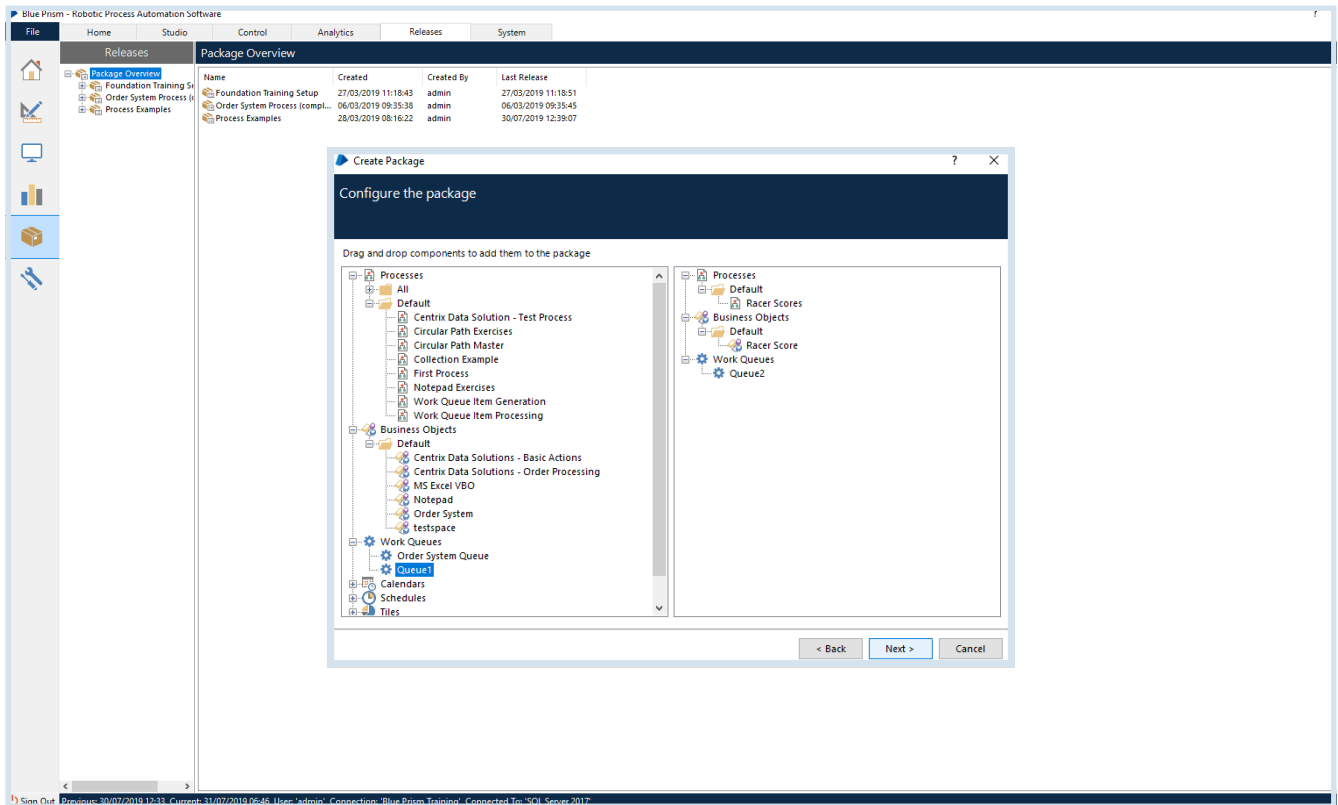

Video 10.1

In this activity, you will learn how to compile a Package of components for a Solution before creating a Release.

Package a Blue Prism Solution.

- For this activity, you will be working in the Releases Area of Blue Prism.
- In Release Manager, *right-click* on *Package Overview* and select *New Package*.
- Provide a name - *Racer Scores* - and description of your Package.
- Drag and drop components from the left-hand area of the window, into the right-hand area, to configure your Package.

Processes - Default - Racer Scores
Business Objects - Default - Racer Score
Work Queues - Queue2
- After clicking *Next* and *Finish*, you should see your new Package in the Package Overview list. On selecting this Package, you will see the details you have recently configured including the date and time that it was created, who created it and all of the components of the Package. You can choose to edit any of these details by selecting *Modify*.
- When you are happy with the configuration and the details of your Package, select *New Release*.
- In the Create Release window you can give your Release a Name - *Racer Scores* - Release Notes - *Development complete. Process now ready for UAT.* - and choose the save location - *C:\Users\NameHere\Desktop\Racer Scores.bprelease* . The file extension will be *.bprelease*
- Releases will appear as children of the Package they were created from, in the Package Overview list. You cannot modify Releases once they have been created.

SECTION 10 ACTIVITY 2

Video 10.1

In this activity, you will learn how to import and export a Process and a Release.

Import and export a Process and a Release.

- Select *File* from the Main Menu and then *Export*.
- You have the option to choose either *Process/Business Object* or *New Release*.
- Experiment with exporting an individual Process and the Release you previously configured.
- Then select *File* and *Import* to practice importing Processes and Releases into Blue Prism.
- Remember, to keep the names of all of your components and Releases as unique and descriptive as possible.
