

Foundation Training Quick Setup Guide

Download Learning Edition via Blue Prism Digital Exchange (DX)

1

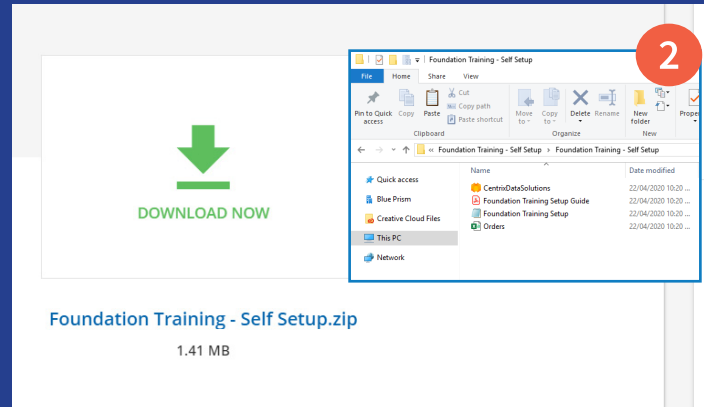

Install Blue Prism

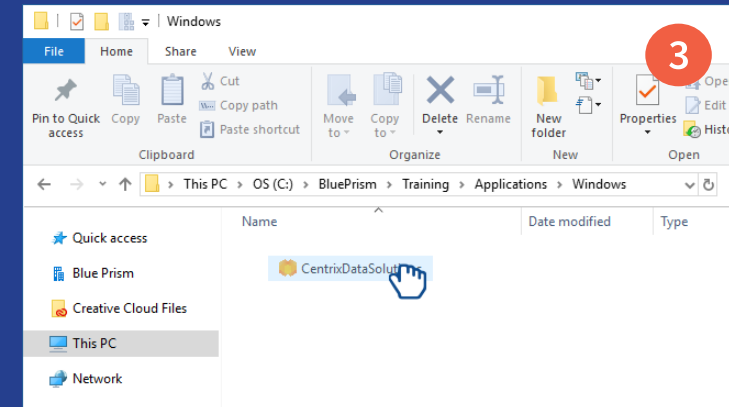

Install Blue Prism License

Please see the *Accessing the Blue Prism Training Environment PDF* in *Foundation Training Section 1*. A comprehensive *Foundation Training Setup Guide* is available in the training files you can download here (see Step 2).

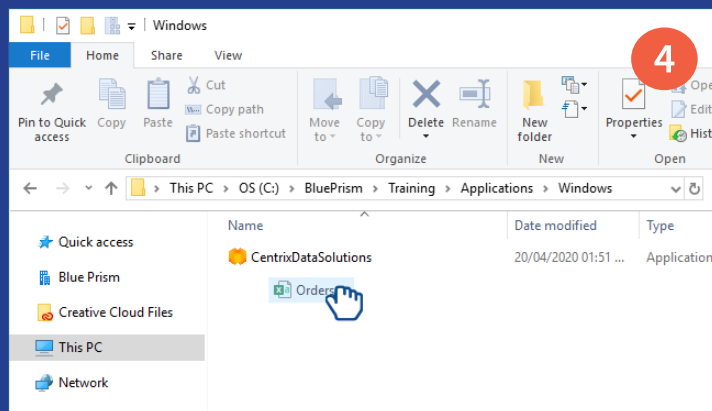

Download and extract the training files from *Foundation Training Section 1*.

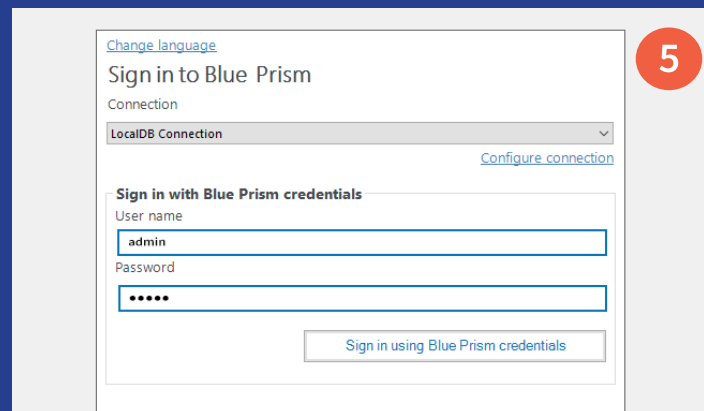

Copy the *CentrixDataSolutions.exe* file to *C:\BluePrism\Training\Applications\Windows*

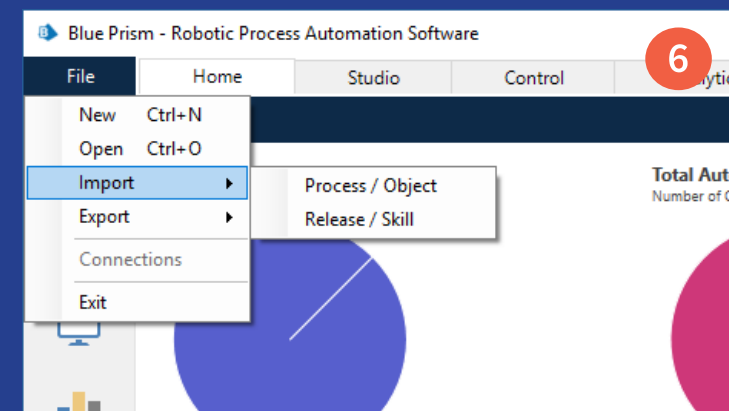

If this folder does not already exist, then please create it.

Copy the *Orders.csv* file to *C:\BluePrism\Training\Applications\Windows*

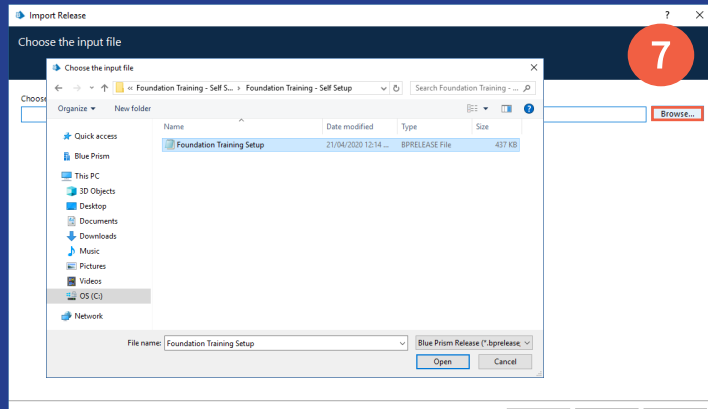

Login using *admin* user name and the password you created during setup. If you did not create a password, use *admin* for the password.

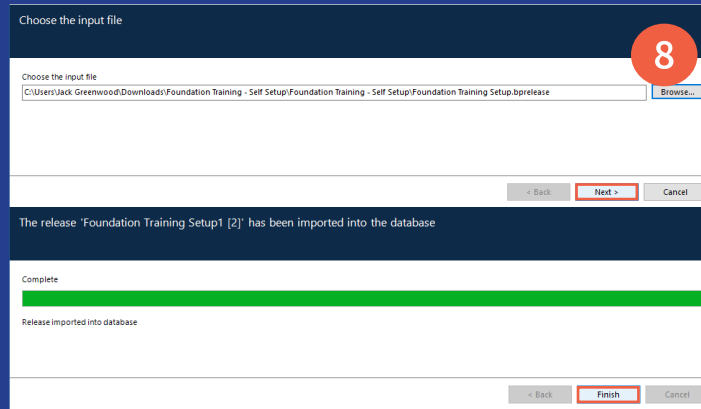

Select *File > Import* or *File > Import Release/Skill*.

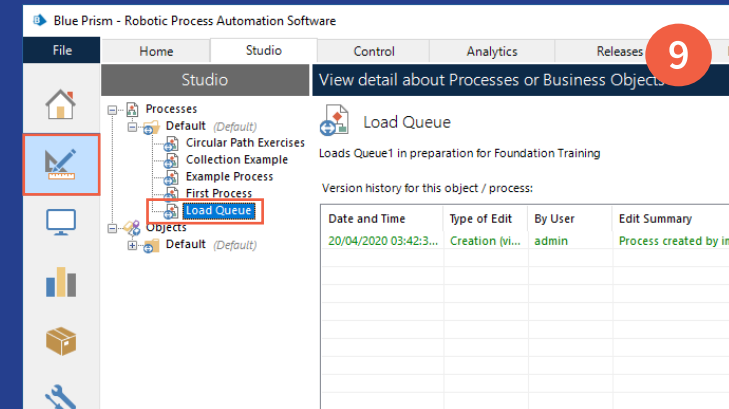

Foundation Training Quick Setup Guide

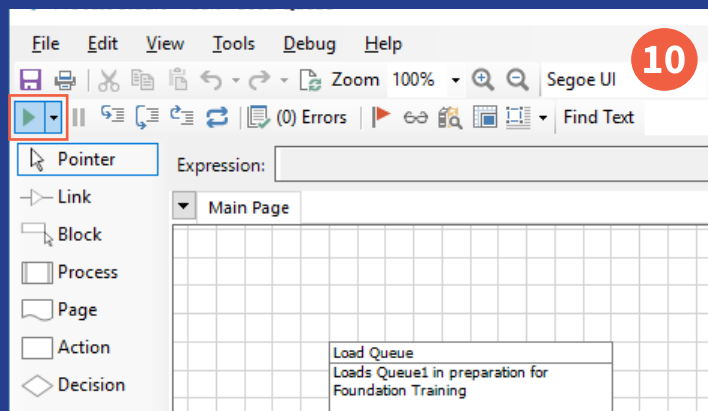

Click *Browse* and then select *Foundation Training Setup.bprelease* file. Click *Open*.

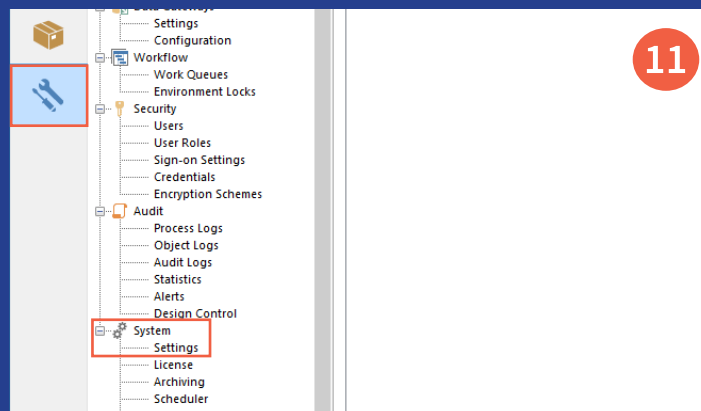

Click *Next*. Click *Finish*.

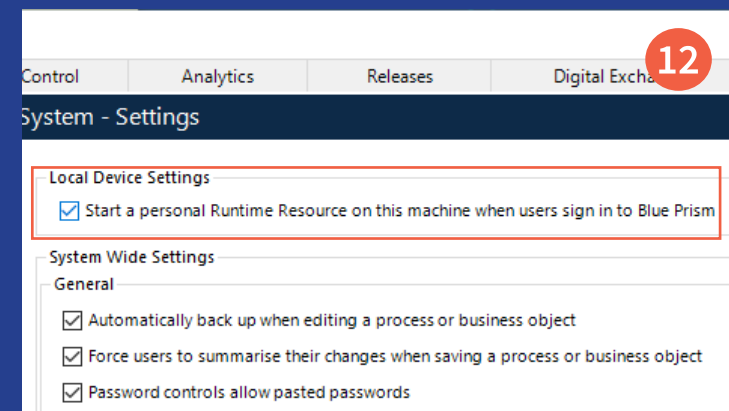

Click on *Studio*. Double-click *Load Queue* in the *Processes* section to open the *Load Queue* Process.

Run the Process by clicking the *Play* button on the toolbar.

Click on the *System* or the *System* icon. Select *Settings* from the *System* group.

Locate the *Local Device Settings* area, and ensure the *Start a personal Runtime Resource on this machine when users sign in to Blue Prism* is checked.
